

Lionbridge App for Oracle Eloqua

Version 2.1.0

Release Notes

March 16, 2020

Overview

Welcome to the Lionbridge App for Oracle Eloqua (App). The App enables you to automate sending and retrieving content from Oracle Eloqua, which dramatically reduces the effort required to create, maintain, and publish Web content in multiple languages.

How to Contact Lionbridge Connector Support

Telephone: +1-416-363-0888

You can submit a support ticket either:

- by email: connectors@lionbridge.com
- from the Lionbridge Connector Zendesk page, using your web browser:
<https://connectors.zendesk.com/>

For more information, visit:

http://connectors.lionbridge.com/docs/Common/Support_Liox.htm

What's New?

- In the **Translation** tab of the **Site Configuration** dialog box, you can select the new **Translate Vanity URL** check box in the **LandingPage Translation** section to configure the App to send the vanity URL of a landing page for translation.
- You can use the new **Default Email Header and Footer for Language** site extension to use your own locale-specific default email headers and footers, instead of translating the email headers and footers from the source language.
- In the **Email Format** tab of the **Site Configuration** dialog box, you can now configure email notifications about translation-job completion to include the following types of information from your translation provider:
 - For Lionbridge Freeway, you can include Freeway analysis codes.
 - For SDL TMS, you can include GUIDs.
